Relevant sections of the CMAS UWH Rules V12 Vol 1

- 3.3.2 Gloves must not contain rigid or sharp reinforcing material.
- 3.3.4 Gloves must be of a colour that strongly contrasts with the colour of that player's stick and the colour of the puck used for the match. Players may not wear a glove of a colour that could be confused with the Water Referees' gloves being used at any competition, which shall always be bright yellow or orange.
- 3.3.9.1 Stick may be produced from wood or plastic or other approved material.
- 3.3.9.2 Stick must fit wholly in a box with the interior dimensions of 100mm x 350mm x 50mm.
- 3.3.9.3 Stick must not be capable of surrounding the puck or any part of the hand. May not encapsulate the puck by more than 50% or lock the puck to the stick. May not protrude from the heel of the hand by more than 25mm. Minimum corner radius around the perimeter edge of the entire stick is 10mm.
- 3.3.9.4 The Stick must be considered safe.
- 3.3.9.5 Stick must be uniformly black or white. It may have discreet markings for identification.
